## **CONSTRUCTION OF WOMEN'S HOSTEL**

### **Introduction**

Social Advancement Foundation of India (SAFI) is a nonprofit charitable trust established in September 2001 for the upliftment and transformation of educationally backward classes, particularly Muslim community in to a progressive and advanced society. The trust is constituted by educationists, philanthropists and social activists with the objective of providing for academic and research programmes in frontier areas of science and technology and humanities, maintaining international standards. The vision of SAFI is the transformation of our people into an intellectually and morally advanced society competent and dynamic enough to meet the challenges of the modern world. SAFI envisages the emergence of competent leaders in every field.

SAFI Institute of Advanced Study (SIAS) is the most important institution conceived for the fulfillment of its mission. It is to be developed as a hub for post graduate study and research, a centre of excellence, which should in due course become a University or a deemed university. It requires careful advance preparation and massive investment. We have already acquired about 440 acres of land of which about 150 acres is set-apart for developing a campus and rest for developing a Township. We have already provided a magnificent building for housing the existing post graduate department of study like Biotechnology, Bio informatics, Mass Communication and journalism & Islamic Studies. The investment so far is about Rs. 20 crores. It has been the result of the generosity of our patrons.

For the institution to develop into a full fledged campus, much more facilities are essential and we approach our patrons with the hope that they will support or sponsor this project so that Safi Institute of Advanced Study will evolve into an ideal campus.

## **Background**

SAFI Institute of Advanced Studies run by SAFI is mainly a post graduate institution with students from distant places. Even in the case of under graduate courses, the students have to come from far and wide. It is necessary to provide residential accommodation for more than half of students. Besides it is important that the students resides in the campus and participate in the curricular and co-curricular activities. A residential life is of great importance for both cultural and mental developments. The strength of the students at present is not large but very soon we have to expand the number of courses and develop this as a major institution with around 1000 students. In the long run we will have to aim at hostel accommodation for at least 750 to 800 students. The present trend is for more girl students to seek admission for higher studies and majority of them will need residential accommodation. It is estimated that hostel accommodation will be required for about 400 girl students in due course. This accommodation can be created by stages. To begin with we should provide accommodation for at least 120 students. As far as possible PG Students and Research students should be given single room accommodation. The rest will be accommodated in 3 seated rooms.

## **Objective**

The project aims at constructing a women's hostel in the SAFI main campus.

## **Location**

The hostel will be constructed in the SAFI main campus in a suitable area selected from the point of view of security and convenience.

## **Project Cost**

The cost of construction of the women's hostel is estimated to be Rs. 2,37,53,880/-, (Rupees Two crore thirty seven lakh fifty three thousand eight hundred and eighty only)

## **Project implementation and monitoring**

The project will be implemented in one year. The hostel so constructed will be dedicated in the name of the donor or his nominee.
