## **CONSTRUCTION OF MOSQUE AND CULTURAL CENTRE**

### **Introduction**

Social Advancement Foundation of India (SAFI) is a nonprofit charitable trust established in September 2001 for the upliftment and transformation of educationally backward classes, particularly Muslim community into a progressive and advanced society. The trust is constituted by educationists, philanthropists and social activists with the objective of providing for academic and research programmes in frontier areas of science and technology and humanities, maintaining international standards. The vision of SAFI is the transformation of our people into an intellectually and morally advanced society competent and dynamic enough to meet the challenges of the modern world. SAFI envisages the emergence of competent leaders in every field.

SAFI Institute of Advanced Study (SIAS) is the most important institution conceived for the fulfillment of its mission. It is to be developed as a hub for post graduate study and research, a centre of excellence, which should in due course become a University or a deemed university. It requires careful advance preparation and massive investment. We have already acquired about 440 acres of land of which about 150 acres is set-apart for developing a campus and rest for developing a Township. We have already provided a magnificent building for housing the existing post graduate department of study like Biotechnology, Bio informatics, Mass Communication and journalism & Islamic Studies. The investment so far is about Rs. 20 crores. It has been the result of the generosity of our patrons.

For the institution to develop into a full fledged campus, much more facilities are essential and we approach our patrons with the hope that they will support or sponsor this project so that Safi Institute of Advanced Study will evolve into an ideal campus.

**Background**

SAFI has to cater the needs of Muslim community. In this context a mosque is a very important necessity for the teachers, students and others. The mosque will be a centre for religious and cultural life which will maintain the character of the campus. At present the students and teachers have to cover a long distance to reach a mosque. Hence a mosque in the vicinity is essential. A building to accommodate at least 1000 persons in two stories will be suitable, one story being set apart for ladies.

**Objective**

The project aims at constructing a mosque in the SAFI main campus.

**Location**

The mosque will be constructed in a convenient place near to the entrance of SAFI main campus.

**Project Cost**

The cost of construction of the mosque is estimated to be Rs. 49,51,000/- rounded to Rs. 50,00,000/-.

**Project implementation and monitoring**

The project will be implemented in a year.
