SOCIAL ADVANCEMENT FOUNDATION OF INDIA

CONSTRUCTION OF RESIDENCE TO DIRECTOR

Introduction

Social Advancement Foundation of India (SAFI) is a nonprofit charitable trust established in September 2001 for the upliftment and transformation of educationally backward classes, particularly Muslim community in to a progressive and advanced society. The trust is constituted by educationists, philanthropists and social activists with the objective of providing for academic and research programmes in frontier areas of science and technology and humanities, maintaining international standards. The vision of SAFI is the transformation of our people into an intellectually and morally advanced society competent and dynamic enough to meet the challenges of the modern world. SAFI envisages the emergence of competent leaders in every field.

SAFI Institute of Advanced Study (SIAS) is the most important institution conceived for the fulfillment of its mission. It is to be developed as a hub for post graduate study and research, a centre of excellence, which should in due course become a University or a deemed university. It requires careful advance preparation and massive investment. We have already acquired about 440 acres of land of which about 150 acres is set-apart for developing a campus and rest for developing a Township. We have already provided a magnificent building for housing the existing post graduate department of study like Biotechnology, Bio informatics, Mass Communication and journalism & Islamic Studies. The investment so far is about Rs. 20 crores. It has been the result of the generosity of our patrons.

For the institution to develop into a full fledged campus, much more facilities are essential and we approach our patrons with the hope that they will support or sponsor this project so that Safi Institute of Advanced Study will evolve into an ideal campus.

Background

The SAFI Institute of Advanced Study (SIAS) run by SAFI Trust is headed by a Director. The presence of the Director in the campus through out the year is most important for the proper administration and control of the institute and allied activities. It is impossible for a Director to function satisfactorily if he stays in a distant place. His presence in the campus itself will be a remedy for many problems. He can deal with the issues as soon as they arise, without getting much complications. The residence of the Director will be in a strategic location in the campus not far from the Institute.

A suitable building for the purpose is absolutely necessary and should be given high priority.

Objective

The project aims at constructing a residence to the Director in the SAFI main campus.

Location

The building will be constructed in a convenient place in SAFI main campus.

Project Cost

The cost of construction of the residence to the Director is estimated to be Rs. 20 lakhs (Rupees twenty lakh only)

Project implementation and monitoring

The project will be implemented in a year.
