# **A Brief Outline of The Proposed Project for Establishing Multi Purpose Computer Lab**

## **Introduction**

Social Advancement Foundation of India (SAFI) is a nonprofit charitable trust established in September 2001 for the upliftment and transformation of educationally backward classes, particularly Muslim community into a progressive and advanced society. The trust is constituted by educationists, philanthropists and social activists with the objective of providing for academic and research programmes in frontier areas of science and technology and humanities, maintaining international standards. The vision of SAFI is the transformation of our people into an intellectually and morally advanced society competent and dynamic enough to meet the challenges of the modern world. SAFI envisages the emergence of competent leaders in every field.

SAFI Institute of Advanced Study (SIAS) is the most important institution conceived for the fulfillment of its mission. It is to be developed as a hub for post graduate study and research, a centre of excellence, which should in due course become a University or a deemed university. It requires careful advance preparation and massive investment. We have already acquired about 440 acres of land of which about 150 acres is set-apart for developing a campus and rest for developing a Township. We have already provided a magnificent building for housing the existing post graduate department of study like Biotechnology, Bio informatics, Mass Communication and journalism & Islamic Studies. The investment so far is about Rs. 20 crores. It has been the result of the generosity of our patrons.

For the institution to develop into a full fledged campus, much more facilities are essential and we approach our patrons with the hope that they will support or sponsor this project so that Safi Institute of Advanced Study will evolve into an ideal campus.

## **OBJECTIVE**

To establish a multi purpose computer lab with Internet facility which will be beneficial for both students and teachers.

## **PROPOSAL**

An Internet lab is an essential and inevitable factor in an educational institution. Apart from this our institution promotes research works in various areas, it seems to be an absolute requirement in order to avoid the restrictions in collecting information.

## **PROJECT IN DETAIL**

SAFI Institute of Advanced Study (SIAS) is a hub for research and higher education for both women and men. SIAS has various Bioscience courses, Journalism and Islamic Studies courses. In parallel with the academic programme a strong team of researchers is engaged in pursuing advanced research at SIAS. Use of Software and Internet is an essential factor for all these purposes. At present we have so many restrictions because of unavailability of a common computer lab. So establishment of a computer lab common for both study and research will overcome the restrictions in collecting information.

## **PROJECT COST**

<b>Sl. No.</b>	<b>Items</b>	<b>Number</b>	<b>Cost</b>
1	PC	25	5,50,000
2	UPS	2	2,00,000
3	Server	1	50,000
4	Printer cum Scanner	1	20,000
5	Projector	1	100,000
6	AC	1	1,25,000
7	Furniture	-	1,25,000
8	Wiring	-	30,000
Total			12,00,000
Rupees twelve lakh only			

## **PROJECT IMPLIMENTATION AND MONITORING**

The project is to be implemented and completed with in six months under the supervision of a qualified computer professional. The lab will be dedicated in the name of the donor or his nominee.
