PROJECT FOR CONSTRUCTION OF AN INDOOR STADIUM

Introduction

Social Advancement Foundation of India (SAFI) is a nonprofit charitable trust established in September 2001 for the upliftment and transformation of educationally backward classes, particularly Muslim community into a progressive and advanced society. The trust is constituted by educationists, philanthropists and social activists with the objective of providing for academic and research programmes in frontier areas of science and technology and humanities, maintaining international standards. The vision of SAFI is the transformation of our people into an intellectually and morally advanced society competent and dynamic enough to meet the challenges of the modern world. SAFI envisages the emergence of competent leaders in every field.

SAFI Institute of Advanced Study (SIAS) is the most important institution conceived for the fulfillment of its mission. It is to be developed as a hub for post graduate study and research, a centre of excellence, which should in due course become a University or a deemed university. It requires careful advance preparation and massive investment. We have already acquired about 440 acres of land of which about 150 acres is set-apart for developing a campus and rest for developing a Township. We have already provided a magnificent building for housing the existing post graduate department of study like Biotechnology, Bio informatics, Mass Communication and journalism & Islamic Studies. The investment so far is about Rs. 20 crores. It has been the result of the generosity of our patrons.

For the institution to develop into a full fledged campus, much more facilities are essential and we approach our patrons with the hope that they will support or sponsor this project so that Safi Institute of Advanced Study will evolve into an ideal campus.

Project in detail:-

Our climatic condition nearly half year is rainy. During this period it is difficult to practice many games. It is therefore necessary that an indoor Stadium to be constructed for encouraging physical education through out the year. Inside an Indoor Stadium games like Tennis, volleyball, Badminton, Shuttle court etc. can be played through out the year

and though out the day and even during night hours. So it is an essential requirement of a good educational institution to have an Indoor Stadium of suitable size. Hence this proposal.

Objective

To construct an Indoor Stadium in the SAFI campus.

Location

The Indoor Stadium will be constructed in a convenient place selected for the purpose.

Project Cost

The cost of construction of the proposed Indoor Stadium is estimated to be Rs. 45 lakhs (Rupees forty five lakh only)

Project implementation and monitoring

The project will be implemented in a year. The proposed Indoor Stadium so constructed will be dedicated in the name of the donor or his nominee.
